PROFESSIONAL SUMMARY

Computer Science student, technology entrepreneur, and software developer with experience in web development, IT support, technical training, and building digital solutions. Founder of **Tech Sheikh Computer Hub**, where I provide practical technology training and digital solutions for students and businesses.

Experienced in developing web applications using Python, Django, JavaScript, React, and databases, while also gaining practical experience in IT infrastructure, troubleshooting, system maintenance, and user support. Currently expanding my expertise in **Cloud Computing, DevOps, Linux, and modern software development practices**.

Passionate about using technology to solve practical problems, build useful products, teach others, and create opportunities.

PROFESSIONAL EXPERIENCE

Founder & Technology Entrepreneur

Tech Sheikh Computer Hub | Nigeria
June 2025 – Present

- Founded and manage Tech Sheikh Computer Hub, a technology training and digital solutions initiative serving students and businesses.
- Design and deliver practical training in web development, programming, digital skills, data analytics, digital marketing, and AI tools.
- Help students develop practical technology skills and understand pathways toward employment, freelancing, and entrepreneurship.
- Provide digital solutions for businesses, including professional websites, web applications, and digital marketing support.
- Provide technology-related services including computer support, online applications, and other digital services.
- Guided students through university admission processes and provided education-related support.

- Continuously develop the business through practical systems, technology, customer service, and community engagement.
- Created, Optimized and Manage Google my business account.

IT Support Specialist — SIWES

Givanas Industry Nigeria Limited | Lagos, Nigeria
[August 2026 – Present]

- Troubleshoot and resolve hardware, software, and network-related issues for staff.
- Set up, configure, and maintain computers, printers, and peripheral devices.
- Perform routine system maintenance and monitor network connectivity.
- Install software updates and system patches to support system reliability.
- Respond to technical support requests and provide guidance to users.
- Assist with file backups and maintaining data integrity.
- Document technical issues and solutions for future reference.
- Gain practical understanding of how IT infrastructure supports day-to-day business operations.

Backend Development Instructor

Center4Tech | Hybrid | Lagos Nigeria
[July/2024 – January/2025]

- Trained students in backend development using **Python, Django, and MySQL**.
- Designed practical exercises to help learners understand programming concepts through hands-on development.
- Guided students through project-based learning and problem-solving.
- Provided mentorship and technical support throughout the learning process.

SELECTED PROJECTS

NaijaPrep Max — CBT Practice & Preparation Platform

Web Application | In Development | <https://naija-prep-cbt.vercel.app/>

- Contributing to the development of a Computer-Based Testing (CBT) platform designed to help Nigerian students prepare for computer-based examinations.
- Implemented features designed to simulate important aspects of real CBT environments.
- Includes multilingual support for **English, Hausa, Igbo, and Yoruba**.
- Includes webcam-based proctoring functionality.
- Implements anti-cheating mechanisms such as tab-switching and copy restrictions.
- Includes secure user authentication and registration.
- Generates diagnostic results and identifies areas where students need improvement.

- Includes an on-screen calculator designed to simulate the type of calculator available in computer-based examinations.
- Provides post-test explanations to help students understand their mistakes.

Personal Portfolio Website | <https://ibrahim-jamiu-kayode.vercel.app>

Technologies: HTML, CSS, JavaScript.

- Designed and developed a personal portfolio website to showcase professional experience, projects, technical skills, and services.
- Used the project to document my development journey and establish an online professional presence.
